Sequencing retells the plot in a story in the order it happened. The plot must be told in a way that makes sense. Read the two examples below to find out why sequencing is so important.

Example one

Place the other slice of bread on top. Spread the jelly on top of the peanut butter. Cut two slices of bread. Open the jelly jar. Spread peanut butter on one slice of bread. Open the jar of peanut butter.

Does this make sense? No

Let's look at this example again when it is in the correct order using key sequencing words.

Example two

First, take out two slices of bread, a jar of peanut butter, a jar of jelly, and a knife. Next, open both jars. After that, spread peanut butter on one slice of the bread. Then, spread jelly on top of the peanut butter. Place the other slice of bread on top. Finally, put the lids back on the jars and put the knife in the dishwasher.

Example one

_____ The batter ran to first base.

_____ She hit the ball.

_____ She stepped into the batting box.

_____ The batter put on her batting gloves and helmet.

_____ She dropped the bat.

What order did you put these sentences in?
Check it with the answers below.

Example two

5 The batter ran to first base.

3 She hit the ball.

2 She stepped into the batting box.

1 The batter put on her batting gloves and helmet.

4 She dropped the bat.

Key words can also help the reader understand the story. Some examples are first, last, before, and after.

Clue: These **key** words usually **start** a sentence.

Paragraph one

Taylor wanted to bathe her dog. Milo had been playing outside and had gotten very dirty! First, she filled up the bathtub with warm water. Before she could put her dog into the bathtub, she had to get a towel to dry him off with when she was finished. She found a towel and some flea shampoo, also. After she got all of the things she needed, she put Milo in the bathtub and gave him a good bath. She dried Milo with the towel and let him out. He was so happy! Last, she knew she needed to clean everything up before mother came home. Taylor and Milo had a good day.

Write the four key words you circled in the story on the lines below.

E ____ Many other countries around the world now celebrate

Cause and Effect

Read the information and trace the dotted words.

In 1963, Senator Gaylord Nelson realized something had to be done about the heavy pollution of our land, water, and air. At this time, many companies dumped dangerous chemicals onto the land and into the water. Due to the pollution, many plants and animals were dying. He asked President Kennedy to help, and he did! He traveled around the nation and told people about the problems, but still not much was done. Then, in 1969, Senator Nelson decided to have a special day to teach people about the environment. It was held on April 22, 1970, and he called it Earth Day. Many schools and communities have special programs to teach people about the dangers of pollution.

Clue: look for **key** words!

As the West was being settled, many people wanted to preserve, or protect, its beauty before people destroyed it. President Ulysses Grant established Yellowstone National Park on March 1, 1872. Yellowstone was the first national park in the world.

_____ President Grant established Yellowstone National Park.

_____ People wanted to protect the beauty of the west.

Clue: Look for **key** words!

Yellowstone has a volcanic caldera. A caldera is when the volcano collapses, or falls in, after an eruption. When the volcano erupted millions of years ago, it spread ash all over the North American continent. Since then, land has filled in the hole. Today, visitors can see the rim of the inactive volcano. That is all that is left of a once mighty volcano.

_____ The volcano erupted, spreading ash over North America.

_____ A caldera was formed when the volcano collapsed, leaving only the outer rim visible to humans.

A famous visitor attraction at Yellowstone is Old Faithful. It is a geyser that erupts regularly, sending a cone of water high into the air. It is predictable and visitors can schedule a trip to see exactly when it will erupt.

_____ Many people visit Old Faithful on their visit to Yellowstone.
