The Caddos were the largest Native American tribe in Texas.

The name for Texas came from the Caddo word Tayshas which means "those who are friends."

The word Caddo means "real chiefs."

The Caddos lived in the Piney Woods of East Texas, and also along the Red River in what is now Arkansas, Oklahoma, and Louisiana.

They were a friendly tribe and traded with many other Native Americans.

Circle the things that are wrong in this picture.

The Coahuiltecan tribe was made up of many different groups of Native Americans. The Coahuiltecans lived in the dry grasslands of the Texas Gulf Coast Plains. The dry area of Texas made it very difficult for the Coahuiltecans to survive. The food here was scarce, so they were nomadic like the Karankawas. The Coahuiltecans spoke many different languages. The Spanish explorer Cabeza De Vaca lived for a time with the Coahuiltecans.

Help the Coahuiltecans find their food.

The Coahuiltecans were a nomadic people in search of food. The Coahuiltecans were hunters and gatherers. They would eat anything. They hunted deer, rabbits, birds, rodents, snakes and even bugs. The Coahuiltecans also gathered mesquite beans, nuts and the prickly pear cactus to eat. The prickly pear cactus was one their main food sources. Since they were nomadic, the Coahuiltecans lived in huts made of bent rods and animal skins. These huts were easy to set up and take down so they could be moved from place to place. The lack of food in the dry grasslands made the way of life for the Coahuiltecans extremely hard.
